WORK EXPERIENCE

- **ON-THE-JOB TRAINING**

Finihomes, Marilao, Bulacan

Web Developer

- Developed a CRUD application using Laravel and MySQL.
- Created an enrollment system that allows users to monitor their grades and enroll in courses.
- Used React to create SVG icons for the system.
- Contributed to the development of an admin dashboard that interfaces with the database using APIs, allowing for easy access to each community.

Projects: Support Community

- **ACADEMIC CAPSTONE PROJECT**

Web-based Pet Information System for Barkspace Inc.

- Barkspace Incorporation is a pet clinic that offers a comprehensive system for monitoring pets. We have developed an online Pet Information and Appointment System to facilitate easy scheduling for pet owners. By logging into their accounts on Barkspace, owners can conveniently schedule appointments and track the status of their pets.
